

Frederick National Laboratory for Cancer Research Declaration of Pregnancy

In accordance with the Nuclear Regulatory Commission's regulations in 10 CFR 20, I hereby declare my pregnancy to the FNLCR Radiation Safety Office. I believe I became pregnant in _____ (month and year).

This declaration authorizes Radiation Safety to evaluate the dose received by the embryo/fetus from my occupational exposure to ionizing radiation and to assist in limiting that dose to 0.5 rem (500mrem). I understand that this limit is intended to provide an extra measure of protection for the embryo/fetus since it may be more sensitive to ionizing radiation than an adult. The 0.5 rem limit will be applied from the estimated conception date until the end of the pregnancy. I will comply with any restrictions imposed on my use of ionizing radiation by Radiation Safety in order to meet this limit.
